

MDSolids runs in **Windows 10, Windows 8, Windows 7, and all prior versions of Windows.**

Download MDSolids and give it a try.

[Download MDSolids 4.1.0 \(Microsoft MSI Installer Version\)](#) (8/15/2013, 18 MB)

The registration code is **D93C8ADC**. In honor of Dr. Philpot's tireless dedication to engineering education, the Philpot family is offering free access to the full version of MDSolids. The registration code must be entered in the MDSolids program. On the Help menu, you will find an item called "Register MDSolids." Click on this item, and then enter your name and the registration code in the dialog boxes. The code will remove the 30-day limitation.

The Full Version of MDSolids includes:

- **File Access:** File Open/Save/Save As/Save All capability is now available. Users may elect to save data from an individual MDSolids module or may save data from an entire session.
- **Printing:** Print/Print Form/Print Screen capability has been added to every routine.
- **Bitmaps:** Bitmap Capture and Copy to Clipboard capability is available for routines that feature images.
- **Excel Output:** Data from the Stress-Strain routine, the Section Properties module, and the General Analysis Module can be saved in Excel spreadsheet format (.xls).
- **Customize Material Lists:** Users can create and modify the list of material properties (e.g., Elastic moduli, shear moduli, stress limits, etc.) used by MDSolids.
- **Customize Unit Preference:** Users can set a preference for either SI or US units.
